

## Araiguma Ruler

Real Measurement Tool for Palm OS(R).

### Features

- You can use your Palm Powered™ Device as a REAL ruler.
- Works with Palm Powered™ Device Version OS 3.0 or later
- Supports all Palm Powered™ Device which is in market. (My wish;-)
- Show numerical measure.
- Simple operation (Only up/down key and menu).
- Object database (Memory cards, batteries and coins).
- Lock Screen function (From menu).
- Calibration function (Lock menu ).
- Supports Wide Screen for Clie NR, NX series.

Freeware: totally \$0

### How To Measure

It's easy. Look at this picture.

**Caution:** This program is NOT perfectly accurate, because Palm Powered TM devices aren't designed for measuring objects. However, this program can be useful and fun.

**Disclaimer:** This program is provided "as is" and without warranties. We (Araiguma.com) take no responsibility for any loss of data or any failures with using this program.

## History
